Lead Data Engineer

Digit88 Technologies Private Limited

Job Location
Bengaluru, India

Experience
8-10 years

Description:

Digit88 is a niche product engineering consulting company based out of Bangalore with experience of establishing and managing offshore development centers for US start-ups and MNCs over the last 6+ years. The founding team has 50+ years of product engineering and services experience out of India, China and the US.

The Opportunity:

Research says – Of the 1.8 million jobs AI will get rid of, the emerging field will create 2.3 million by 2020, according to a recent report from Gartner. We'll continue to see job growth in anything AI-related for the next five to 10 years. Want to break into a career in the field? Well.. this could be your chance to make the most of the opportunity.

We @ Digit88 are building a next-generation AI/NLP/Chatbots based customer engagement platform with our US(Bay area/NYC) based NLP/Chatbot platform development partner.

Our Mission

Make life easier by transforming how people communicate with brands.

Our Product

World's No.1 AI based messaging platform that makes it easy for consumers to buy products and get answers to their questions
