Senior DevOps/SRE Engineer

Digit88 Technologies Private Limited

Description

About Digit88

Digit88 is a niche product engineering consulting company based out of Bangalore with experience of building offshore development centers for top-notch US product start-ups and MNCs since 2014. The founding team has 50+ years of product engineering and services experience out of India, China and the US.

The Opportunity:

Research says – Of the 1.8 million jobs AI will get rid of, the emerging field will create 2.3 million by 2020, according to a recent report from Gartner. We'll continue to see job growth in anything AI-related for the next five to 10 years. Want to break into a career in the field? Well.. this could be your chance to make the most of the opportunity.

We @ Digit88 are building a next-generation AI/NLP/Chatbots based customer engagement platform with our US(Bay area/NYC) based NLP/Chatbot platform development partner.

Our Mission:

Make life easier by transforming how people communicate with brands.

Our Product:

World's No.1 AI based messaging platform that makes it easy for consumers to buy products and get answers to their questions

Our Hunt:

Digit88 is seeking an enthusiastic Site Reliability Engineer (DevOps) with 5-8 years of hands-on experience to join the platform engineering and DevOps team for our Bay Area based partner. Experience with a fast-paced India/US product engineering services company in a Dev Ops engineer role, setting up and maintaining a high-availability, high-performance real-time system is mandatory. Applicants must have a passion for engineering with accuracy and efficiency, be highly motivated and organized, able to work as part of a team, and also possess the ability to work independently with minimal supervision.

Responsibilities:

In this role, you'll get to:

- Build and maintain cross-team platform components: infrastructure based on Infrastructure-as-Code, CI/CD pipelines, application/infrastructure monitoring, and automation of other development-related processes

Job Location

Bengaluru, India

Employment Type

Full-time

Experience

5-8 Years

- Design and Deploy Automation of Container Applications using Kubernetes and Docker
- Setup application/system monitoring
- Work with Developers/QA to build and validate containerized applications
- Manage geographically deployed server farms
- Document Deployment Processes, Services and Environments

Requirements:

- BE/BTech with CS or related discipline
- 5+ years of experience as a DevOps, Site Reliability Engineer (SRE) or Systems Engineer
- Advanced understanding of AWS services and components – VPC, IAM, EC2, ALB, ECS/EKS
- Strong background in Linux Shell Programming.
- Strong experience with SQL and NoSQL (Cassandra or DynamoDB)
- Strong experience in Distributed Streaming Platform (Kafka/ Spark)
- Strong experience in Docker Containers
- Hands on experience with one or more of Java/Python/Go/NodeJS languages
- Implementation Experience in automation tools and frameworks (CI/CD pipelines) like Git (Source Repo), Maven/Gradle (build tool), Jenkins/Teamcity and Docker.
- Hands-on experience in Kubernetes
- Hands-on experience in Terraform
- Experience in Package Management Tools like npm.
- Experience with automation/configuration management tools like Salt/ Puppet/ Chef/ Ansible.
- Ability to use a wide variety of open source technologies and cloud services (experience with AWS is required) for application deployment.
- Knowledge of best practices and IT operations in an always-up, always-available service
- Experience in troubleshooting production issues and co-ordinate with the development team to streamline code deployment.
- Proven experience in optimizing the company's computing architecture.

Good to have:

- AWS certification (Architect, Operations) is a plus
- Experience in Kubernetes/Swarm is a plus.

Additional Project/Soft Skills:

- Strong verbal and written communication with ability to articulate problems and solutions over the phone and emails.
- Strong sense of urgency, with a passion for accuracy and timeliness.
- Ability to work calmly in high pressure situations and manage multiple projects/tasks.
- Ability to work independently and possess superior skills in issue resolution.

Benefits & working @ Digit88

- Comprehensive health and accident insurance
- Attractive pay package
- Bonus/Revenue share opportunities
- Creative, flexible and rewarding work environment
- Opportunity to work with a founding team of serial entrepreneurs with multiple successful exits to their credit. The learning will be immense just as will the challenges
