## Senior Software Engineer – Chatbots

Digit88 Technologies Private Limited

### Description:

Digit88 is a niche product engineering consulting company based out of Bangalore with experience of establishing and managing offshore development centers for US start-ups and MNCs over the last 6+ years. The founding team has 50+ years of product engineering and services experience out of India, China and the US.

### The Opportunity:

Research says – Of the 1.8 million jobs AI will get rid of, the emerging field will create 2.3 million by 2020, according to a recent report from Gartner. We'll continue to see job growth in anything AI-related for the next five to 10 years. Want to break into a career in the field? Well.. this could be your chance to make the most of the opportunity.

We @ Digit88 are building a next-generation AI/NLP/Chatbots based customer engagement platform with our US(Bay area/NYC) based NLP/Chatbot platform development partner.

### Our Mission

Make life easier by transforming how people communicate with brands.

### Our Product

World's No.1 AI based messaging platform that makes it easy for consumers to buy products and get answers to their questions

### Our Hunt

Digit88 is seeking a Chatbot Developer to join our Chatbots development team. As a Bot Developer, you will participate in project design and development stages from the concept to final hand-off to the customer.

### Your key responsibilities would be to

- Prepare Chatbot storyboards, user/process flows to effectively communicate interaction and design ideas.
- You will Develop, Debug and Deploy conversational Chatbot experiences using appropriate client platform and tools
- Discuss development and key milestone deliverables with peers, executives and executive-level client stakeholders.
- Participate in creating guidelines, best practices and standards of Chatbot-featured deliverables.
- Keep abreast of the latest Chatbot trends, techniques, and technologies
- Perform demonstrations for client stakeholders on project features and sub features, which utilizes Chatbot solutions.

### Job Location

Bengaluru, India
