Senior Web Application Engineer – Angular/NgRx/RxJS

Digit88 Technologies Private Limited

Description
About Digit88

Digit88 is a niche product engineering consulting company based out of Bangalore, India with experience of building offshore development centers for US startups and MNCs since 2014. The founding team has 50+ years of product engineering and services experience out of India, China and the US.

The Opportunity

Digit88 is establishing a new offshore product development team for its US (Boston/Chicago) based partner, to help engineer an innovating B2B SaaS platform in the space of Product Lifecycle Management, Agile Merchandising, AR/VR for the ECommerce industry. The candidate would be joining an existing team of outstanding product engineers in the US and help us expand product engineering, web application development for our partner.

Job Profile:

We are looking for enthusiastic, self-driven, mid to senior front-end engineers with exceptional modern web app development skills using JavaScript/TypeScript based frameworks, specifically Angular, Ngrx, Rxjs. Experience with a fast-paced India/US product start-up or a product engineering services company in a senior front-end engineer role, building and managing a high-performance real-time streaming type system is mandatory. Applicants must have a passion for engineering with accuracy and efficiency, be highly motivated and organized, able to work as part of a team, and also possess the ability to work independently with minimal supervision.

To be successful in this role, you should possess

- Bachelor's degree in Computer Science or a related field with a minimum 5 years experience working as a senior front-end engineer
- At least 4 years hands-on experience with Angular (2+), TypeScript and hands-on with Angular 11
- Strong experience with websockets, observable based programming using RxJS.
- Expertise with redux type data stores using NgRx
- Strong Object-oriented JavaScript programming skills with proficiency in multiple JavaScript based frameworks.
- Strong with HTML5/CSS3/SASS/LESS/Bootstrap/Material design
- Experience in creating client side asynchronous web applications using Ajax.
- Experience building a streaming analytics system is a big plus.
- Experience with building Google docs like collaboration SaaS products is a huge plus.
- Practitioner of Test Driven Development. Proven experience with unit testing using one or more of Jasmine, Karma, Mocha, Jest.

Job Location
Bengaluru, India

Employment Type
Full-time

Experience
5-8 Years

Digit88 Technologies Private Limited
